Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 16, 2007 been entered.

Response to Amendment

2. In response to the Amendment received on August 16, 2007, the examiner has carefully considered the amendments. The examiner acknowledges the cancellation of claim 47. The claim rejection under 35 U.S.C. § 112, 2nd paragraph for claims 8 and 31 have been overcome by the amendment and has hereby been withdrawn for consideration.

Response to Arguments

3. Applicant's arguments with respect to claims 1-2, 4-19, 22-25, 27-42, and 45-46 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112: The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-2, 4-19, 22-25, 27-42 and 44-46 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant's amendment excludes the use of bleed-control polymers other than hydrolyzed styrene-maleic anhydride copolymers. And additionally,

Art Unit: 1796

excludes the use of a dispersible black pigment in the pigment-based black ink of the inkjet ink set as instantly claimed. However, applicant has provided no guidance where these limitations as taught in the specification and the examiner, upon reading the specification, did not find where these limitations were positively exclude from applicants ink compositions. The courts have held that negative limitations recited in the claims, which do not appear in the specification as filed, introduces new concepts and violates the description requirement of the 1st paragraph of 35 USC 112. The examiner deems that one ordinary skill in the art would not have been able to obtain/make/use the inkjet ink set as presently claimed from the teachings of the disclosure. Appropriate action is requested.
